Non-Convertible Debenture Issue	1,900	CARE C; Stable (Single C, Outlook: Stable)	Revised from CARE BB; Stable (Double B, Outlook: Stable)
Total	2,125 (Rupees two thousand one hundred twenty five crore only)		

Details of instruments/facilities in Annexure-1

Detailed description of the key rating drivers

The rating revision takes into account the recent instance of rescheduling of non-convertible debentures by Wadhawan Global Capital Ltd (WGCL) on account of its stressed liquidity profile. The company continues to face stressed liquidity on account of reduction in financial flexibility post delay in servicing by an associated company (DHFL), higher impending debt payments vis a vis inflows from proceeds from the recent strategic sale of Aadhar Housing Finance Ltd and pending inflows from other asset monetization plans.

The rating is constrained by WGCL's moderate capital ratio with rise in gearing levels, volatility in income profile due to reliance on dividends, concentrated investments in group companies and sharp fall in market capitalization of DHFL and poor liquidity position. Ability of the company to monetize group investments, market value of investments, profitability and gearing ratio are the key rating sensitivities.

Detailed description of the key rating drivers**Key Rating Weaknesses****Deteriorating financial performance**

WGCL's dividend income reduce by 46% from Rs.77 crore in FY18 to Rs.42 crore in FY19 (provisional) on account of lower dividend from DHFL. As a result, profit after tax stood at Rs.11 crore in FY19 (provisional) as against Rs.41 crore in FY18. WGCL's net worth declined from Rs.2,174 crore in FY18 to Rs.1,870 crore in FY19 (provisional) as premium (accrued interest) on existing Zero Coupon Bonds (ZCB) is deducted from share premium account. As a result, WGCL's reported capital ratio declined to 32.07% as March 31, 2019 (provisional) as compared to 49.91% as March 31, 2018, though it continued to be above regulatory requirement of 30% for a CIC. Reported leverage ratio also increased from 1.51 times in FY18 to 1.68 times in FY19 (provisional), though it continued to remain below regulatory limit of 2.5 times.

Deteriorating financial flexibility

Incidence of delay by DHFL is expected to further reduce the group's financial flexibility and diminishes WGCL's ability to raise funds from the markets which may take a measured approach in extending any further funds to group.

Concentrated investments in group companies and sharp fall in market capitalization of DHFL

As of March 31, 2019, the company has its major investment in DHFL and DHFL Investment Ltd (DIL) having book value of Rs.1,608 crore and Rs.1,901 crore respectively accounting for 63% of total investments. As on July 4, 2019, DHFL had market capitalization of around Rs.2,442 crore and market value of WGCL's holdings in DHFL stood at around Rs.1,016 crore, which is lower than the book value of investment.

Poor liquidity profile

WGCL had total external borrowing of around Rs.3,000 crore (including accrued interest) as on May 31, 2019, out of which Rs.2660 crore was in form of Zero Coupon Bonds (ZCBs). As per the terms of these ZCBs, acceleration in repayments has been triggered due to downgrade in ratings of DHFL. The company has already received around Rs.1,600 crore through Aadhar stake sale and has repaid liabilities worth around Rs.993 crore through these proceeds including Rs.640 crore of accelerated payment on ZCBs. The company is expecting an inflow of around Rs.450 crore through Avanse stake sale in the month of July 2019, which is expected to be utilized for repayment of these ZCBs. WGCL has poor liquidity profile as proceeds from Aadhar and Avanse are insufficient to cover the accelerated payment on ZCBs. Hence, WGCL's liquidity profile heavily depends upon its ability to monetize other group investments in near term. As per cash flow statement on May 31, 2019, the company is expecting cash inflows worth around Rs.4,091 crore during the next one year through disinvestments against which it has scheduled repayments of around Rs.2030 crore.

¹ Complete definitions of the ratings assigned are available at www.careratings.com and in other CARE publications.

Analytical approach: WGCL has now been assessed on standalone basis as the profile of the credit enhancement provider has weakened substantially.

About CARE Ratings:

CARE Ratings commenced operations in April 1993 and over two decades, it has established itself as one of the leading credit rating agencies in India. CARE is registered with the Securities and Exchange Board of India (SEBI) and also recognized as an External Credit Assessment Institution (ECAI) by the Reserve Bank of India (RBI). CARE Ratings is proud of its rightful place in the Indian capital market built around investor confidence. CARE Ratings provides the entire spectrum of credit rating that helps the corporates to raise capital for their various requirements and assists the investors to form an informed investment decision based on the credit risk and their own risk-return expectations. Our rating and grading service offerings leverage our domain and analytical expertise backed by the methodologies congruent with the international best practices.

Disclaimer

CARE's ratings are opinions on credit quality and are not recommendations to sanction, renew, disburse or recall the concerned bank facilities or to buy, sell or hold any security. CARE has based its ratings/outlooks on information obtained from sources believed by it to be accurate and reliable. CARE does not, however, guarantee the accuracy, adequacy or completeness of any information and is not responsible for any errors or omissions or for the results obtained from the use of such information. Most entities whose bank facilities/instruments are rated by CARE have paid a credit rating fee, based on the amount and type of bank facilities/instruments.

In case of partnership/proprietary concerns, the rating /outlook assigned by CARE is based on the capital deployed by the partners/proprietor and the financial strength of the firm at present. The rating/outlook may undergo change in case of withdrawal of capital or the unsecured loans brought in by the partners/proprietor in addition to the financial performance and other relevant factors.
