Acuité Ratings & Research Limited

Rating Rationale of the Issuer

The upgrade in rating takes into consideration sustained and calibrated growth in AUM with diversified (product and geography) asset mix and continued focus to expand across all channels viz. branch-led, ecosystem and partnership & alliances, demonstrated resource raising ability with granular liability franchise to cushion finance cost and support; the NIM and profitability, though modest, are expected to improve, augmented by business growth.

The rating continues to takes into account the governance framework of UGRO wherein the majority of the Board comprises of Independent Directors and nominee directors (three Private Equity Investors) coupled with an experienced management team. The rating also factors in the high capitalization levels and low gearing levels. The capital adequacy ratio stood at 36% as on December 31, 2021 and 65% as on March 31, 2021 (March 31, 2020: 88%) coupled with moderate gearing of 1.84 times as on December 31, 2021 and 0.80 times as on March 31, 2021 (March 31, 2020: 0.28 times). The company has demonstrated its ability to raise funds of Rs.705.40 Cr. by way of Term Loans, Non-Convertible Debentures, Commercial Paper in FY2021 from a diversified base of 50 lenders including large Public and Private Sectors Banks as of December'2021. The company has also diversified its borrowing profile by way of direct assignment transactions of ~Rs. 14 Cr. in FY2021. The rating also derives comfort from the business model which is based on technology adoption at each and every stage, right from initial screening of the borrower to monitoring of the exposures at the post disbursal stage.

The rating is constrained by high operating costs at ~69% of UGRO's total income (i.e. net interest income and other operating income) during 9MFY22, though improvement from ~71% during FY2021, as UGRO continues to invest into its distribution channel to diversify its asset profile within MSME from 1 Lac loan to 5 Crores loan segment. This has in return led to subdued Return on Average Assets (RoAA) of 0.52% (annualized) as on December 31, 2021 compared to 1.98% as on March 31, 2021. Though the company has registered significant growth in outstanding portfolio to Rs. 2,589 Cr as on December 31, 2021 from Rs. 1,317 Cr. as on March 31, 2021, its ability to sustain this growth momentum while containing its asset quality given the likelihood of resurgence of the COVID19 and its consequent impact on the recovery of the MSME focused NBFCs like UGRO will be key monitorable.

Rating rationale for the ACUITE PP-MLD AA+(CE) rated principal protected market linked debentures:

The rating takes into account the comfort of dual recourse to the investors. The debt servicing to the investors is supported by regular cash flows of UGRO and the presence of a cover pool to support the servicing of the NCDs in the event of non-payment by UGRO.

Analytical Approach

Acuité Ratings & Research Limited

Acuité has considered the standalone financial and business risk profile of UGRO to arrive at the rating.

Standalone rating considered for the Rs. 139.70 Cr PP-MLD instruments: ACUITE A+ Key Rating Drivers

Strength

• Experienced management team supported by marquee investors:

UGRO commenced lending operations in 2019 with a focus on lending towards the Micro Small and Medium Enterprises (MSME) segment. The company is headed by Chairman and Managing Director, Mr. Shachindra Nath. Mr. Nath has over two decades of experience in BFSI across insurance, asset management, lending and capital markets sectors. The company is supervised by a majority Independent Board consisting of experienced professional drawn from different background. The other members of the senior management team have experience of around two decades in BFSI sector.

UGRO's management team is supported by marquee investors. UGRO's investors includes private equity players, insurance companies and family offices. The institutional investors include ADV Partners, NewQuest Asia Investments III Limited, PAG (PE firm with focus on the Asia-Pacific region), Samena Capital (a MENA focused PE investment group). In addition to the Private Equity Investors UGRO through QIP and Private Placement also raised money from domestic AIFs, Insurances Companies, Family Offices. These investors have infused capital of ~Rs. 650 Cr in FY2019 and ~Rs. 240 Cr in FY2020. The ability to attract capital from a diverse set of investors in its initial stage of operations points to the credibility of the top management team. It also reflects the confidence in the business model and strategy. UGRO's net worth stood at Rs. 959.1 Cr as on Dec 31, 2021 as compared to Rs. 952.4 Cr. as on March 31, 2021 (March 31, 2020: Rs. 921.5 Cr.). The networth stood at about Rs. 959.1 Cr. as on December 31,2021. The capital adequacy ratio stood at 36% as on December 31, 2021 (March 31, 2020: Rs%). The high capital adequacy (i.e. moderate gearing, 1.84x as on December 31, 2021 and 0.80x as on March 31, 2021) provides UGRO adequate headroom to raise additional borrowings to support its future growth trajectory.

Acuité believes, that the experienced management team, presence of marquee investors and healthy capitalisation levels will support UGRO's fund raising plans over the near to medium term.

• Business model based on high level of digitization and adherence to predefined policies:

UGRO's business model is based on technology adoption at each and every stage, right from initial screening of the borrower to monitoring of the exposures, at the post disbursal stage. UGRO's average ticket size is Rs. 15 lacs with maximum single party exposure of ~Rs. 5 Cr. Hence, the portfolio is expected to be granular in nature and with high degree of technological support for effective monitoring of the portfolio. UGRO's target clientele are MSME units from nine identified sectors, which are Healthcare, Education, Chemicals, Food Processing/FMCG, Hospitality, Electrical Equipment's and Components, Auto Components, Light Engineering and Micro Enterprise Segment. UGRO has identified these sectors from an indepth study and recommendations from external advisory agencies. UGRO divides these sectors into multiple sub – sectors and approach them with concept of eco system around them.

The credit underwriting process and platforms are designed to ensure quick turnaround, without compromising on quality of the loan appraised. The company has put in place credit tools such as scorecards, which help in arriving at the credit decision. The management has developed detailed questionnaires for each sub segment, which help in identifying the key credit issues and sharpening the quality of credit decision.

Acuité Ratings & Research Limited

The systems and process are evaluated and reviewed from time to time to improve their efficacy to the credit process. The company has put in place safeguards to minimize the possibility of dilution of these processes. These include clauses in the Article of Association such as the right of appointment/termination of key managerial personnel directly to the board and ensuring granularity of the portfolio with loan of more than 1 per cent of its Net Worth or to any related party requiring majority board approval and a unanimous consent of its Asset Liability Committee.

Acuité believes that while adherence to stringent underwriting standards may impact the pace of growth of UGRO, it will aid UGRO to maintain its asset quality in a steady operating environment.

• Strong and sustained business growth

UGRO commenced its lending operations in January 2019 with a focus on lending towards MSME segment across eight identified sectors. The company has been gradually building a granular loan portfolio with a maximum single borrower exposure restricted to ~Rs. 5 Cr. The company witnessed strong and sustained traction in its business in FY2022 with outstanding portfolio growing to about Rs. 2,589 Cr. as on December 31,2021 (March 31,2021: Rs. 1,317 Cr.). In terms of distribution channel wise, though disbursals picked up across all the channels viz. branch-led, partnership and alliances (including co-origination arrangements with NBFCs and loans to NBFCs for onward lending), ecosystem channel (machinery loans and supply chain finance) and pools buyout out from other NBFCs., healthy disbursals momentum was seen particularly in branch-led and machinery loan channels, together constituting about 72% of total disbursals of Rs. 2175 Cr. during 9MFY2022 (FY2021: Rs. 1147 Cr.).

Acuite believes that the ability of the company to sustain the business growth will be key monitorable.

• Well diversified resource profile with demonstrated resource raising ability

UGRO has a fairly well diversified funding profile with resources raised from various sources such as private sector banks, public banks, NCDs, funding via direct assignment and securitization transactions and term loans from other financial institutions. Demonstrated ability to secure equity funding from a diverse base of marquee investors, comprising private equity funds, insurance companies and family offices. The lender base witnessed substantial increase to 50 lenders as of December 31, 2021 as against 29 lenders as of March 31, 2021.

Furthermore, borrowing costs have steadily declined underlying growing acceptance among the bankers. On the co-lending front, the company has Bank of Baroda, SBI, IDBI Bank and most recently Central Bank of India as its partners.

UGRO is a listed entity, hence raising additional equity/debt should be relatively easy, subject to operational performance. The high disclosure norms associated with listed companies will help in raising debt funding since lenders will prefer high level of disclosures.

The company's gearing stood at 1.84 times as on Dec 31, 2021 leaving adequate headroom for raising additional debt. The company has sanctions amounting to about Rs 1,115 Cr in the pipeline till March 2022.

The company has a strong investor base with comfortable liquidity position.

Weakness

• Moderate improvement in asset quality

UGRO's 90+dpd has improved to 1.91% as on December 31, 2021 from 2.28% as on March 31, 2021. Also, the company's 30+dpd has improved to 3.31% as on December 31, 2021 from 5.10% as on March 31, 2021. The company's restructured portfolio constitutes Rs.136.4 Cr. (5.3% of the AUM) as on December 31, 2021 (7.2% of the portfolio as on Sep 30, 2021). The company has made no additional restructuring during Q3FY2022 and the decline in the restructured

book percentage is on account of growth in AUM. Majority of the restructuring was done in the Branch Led Portfolio within the Education & Hospitality sector.

UGRO's asset quality has not witnessed material deterioration with GNPA at 2.4% as of December'21, where the impact of change in IRAC asset classification norms have already been taken into consideration. This has been extended till September 30, 2022. Excluding the impact of change in IRAC asset classification norms, the GNPA stood at 1.9% as of December'21. The company's restructured portfolio steadily increased since December 2020 under the Covid19 restructuring window provided by the RBI, and it accounts for 5.3% of the overall book as of Dec'21. However, the company has no plans of significant additional restructuring going forward.

UGRO's credit profile, hitherto, has been underpinned by its track record in raising resources both debt and equity from various investors/lenders. It has also demonstrated the ability to raise funds through avenues like securitisation deals to diversify its sources of funding. Hence the resource raising ability has been adequately demonstrated in the past. Besides continued resource raising ability, Acuité takes cognisance of UGRO's strategy of diversifying distribution channel with recent co-lending partnerships with Bank of Baroda (BoB), State Bank of India (SBI), Industrial Development Bank of India (IDBI), and Central Bank of India (CBI), and proposed partnerships in the pipeline, which, coupled with focus on building branch network, is expected to drive the outstanding portfolio growth.

• Moderate, albeit improving earnings profile

The company posted muted profits (PAT) of Rs.3.39 Cr. for Q3FY2022 as compared to Rs. 3.38 Cr for Q2FY2022 despite noticeable improvement in pre-provisioning operating profit of Rs. 14.44 Cr for Q3FY2022 as compared to Rs. 10.64 Cr for Q2FY2022 as it booked higher provisioning costs. The PAT was Rs. 28.73 Cr for FY2021 as compared to Rs. 19.52 Cr for FY2020. The company made management overlay of Rs.2.7 Cr. during Q3FY2022. The operational costs continue to benefit from growing scale of operations with operations expenses as gauged from cost to income ratio (%) witnessing downward trend to 69% during Q3FY2022 (Q2FY2022: 69% and Q3FY2021: 74%).

The company witnessed a subdued Return on Average Assets (RoAA) of 0.52% (annualized) as on December 31, 2021 compared to 1.98% as on March 31, 2021.
