Dear Mr. Kishore Lodha,

**Re: Review of CRISIL Rating on the Rs.250 Crore Long Term Principal Protected Market Linked Debentures of Ugro Capital Limited**

All ratings assigned by CRISIL Ratings are kept under continuous surveillance and review.

CRISIL Ratings has, after due consideration, reaffirmed the CRISIL PPMLD A- (pronounced as CRISIL PPMLD A minus rating) rating for the captioned Debt Instrument, and revised the outlook to Positive from stable. Securities with this rating are considered to have adequate degree of safety regarding timely servicing of financial obligations. Such securities carry low credit risk.

A prefix of 'PP-MLD' indicates that the instrument is a principal-protected market-linked debenture. The terms of such instruments indicate that while the issuer promises to pay back the face value/principal of the instrument, the coupon rates of these instruments will not be fixed and could be linked to one or more external variables such as commodity prices, equity share prices, indices, or foreign exchange rates. Therefore, payments on the rated instrument have significant risks other than credit risk. This could result in variability in returns because of adverse movement in value of the external variables, and/or possible material loss of principal on early redemption of the instrument. The risk of such adverse movement in price / value is not addressed by the rating.

In the event of your company not making the issue within a period of 180 days from the above date, or in the event of any change in the size or structure of your proposed issue, a fresh letter of revalidation from CRISIL Ratings will be necessary.

As per our Rating Agreement, CRISIL Ratings would disseminate the rating along with outlook through its publications and other media, and keep the rating along with outlook under surveillance for the life of the instrument. CRISIL Ratings reserves the right to withdraw, or revise the rating / outlook assigned to the captioned instrument at any time, on the basis of new information, or unavailability of information, or other circumstances which CRISIL Ratings believes may have an impact on the rating. Please visit [www.crisilratings.com](http://www.crisilratings.com) and search with the name of the rated entity to access the latest rating/s.

#### Detailed Rationale

CRISIL Ratings has revised its outlook on the long-term bank facilities and debt instruments of Ugro Capital Limited (UGRO) to **'Positive'** from 'Stable' while reaffirming the ratings at 'CRISIL A-/CRISIL PPMLD A-'. CRISIL Ratings has also assigned its **'CRISIL A-/Positive'** rating to Rs.200 crore tier II bond. The rating on the commercial paper has been reaffirmed at 'CRISIL A1'.

The revision in outlook is driven by the expectation of continued improvement in the earnings profile and steady scale-up of the portfolio. The expected capital infusion of Rs 350-400 crore will support the planned growth. The ratings also continue to reflect the company's diversified and customised product offerings across the micro, small and medium enterprises (MSME) segment. These strengths are partially offset by the company's limited track-record of operations and high operating costs.

UGRO's pre provisioning operating profit has improved to 2.7% on average managed assets for the first nine months of fiscal 2023 from 2.0% and 2.1% in fiscals 2022 and 2021, respectively, supported by high net interest margin and assets under management (AUM) growth. UGRO's return on managed assets (ROMA) improved to 0.8% for the first nine months of fiscal 2023 from 0.6% for fiscal 2022 (1.9% for fiscal 2021). Excluding the impact of deferred tax write offs of Rs 11.4 crore, ROMA would be 1.1% for the first nine months of fiscal 2023. Profitability is expected to improve further with scale based operating efficiency kicking in.

The company's AUM has grown 1.7 times to Rs 5095 crore as on December 31, 2022, from Rs 2696 crore as on March 31, 2022 (Rs 1317 crore a year earlier). Out of the total AUM, ~28% was co-lending book (~8% as on March 31, 2022). The growth has been driven by deepening its presence in existing geographies and increasing co-lending partnerships with large banks.

UGRO's tangible networth stood at Rs 922 crore with adjusted gearing of 3.5 times as on December 31, 2022 (Rs 935 crore and 2.2 times, respectively, as on March 31, 2022). The company is in the final stages of raising additional capital of Rs 350 - 400 crore, with the infusion expected in Q1FY24.

#### Analytical Approach

CRISIL Ratings has analysed the standalone business and financial risk profiles of UGRO.

#### Key Rating Drivers & Detailed Description

##### Strengths:

**Comfortable capitalisation**

Capitalisation metrics remain comfortable, supported by the large initial capital infusion. The company has, since 2018, raised a total equity capital of ~Rs 900 crore, from investors such as Newquest Asia Investments, Clearsky Investment holdings (ADV Partners), Samena Capital and DBZ Cyprus (PAG), most of which was raised upfront, before the commencement of operations in 2019.

As on December 31, 2022, tangible net worth of the company stood at Rs 922 crore with an adjusted gearing of 3.5 times as against Rs 935 crore and 2.2 times, respectively, as on March 31, 2022. The company is expected to follow an asset light model over time with a significant proportion of the AUM being off-balance sheet in the form of co-lending or direct assignment transactions, which should reduce the capital requirement for the business. Co-lending as a proportion of AUM has increased to 28% as on December 31, 2022 from 8% as on March 31, 2022. Further, the company is expected to raise ~Rs 350-400 crore of capital in the near term, which should support the capitalisation for the planned growth.

While gearing is expected to increase from current levels, on-balance sheet gearing is expected to remain below 4.5 times on a steady-state basis.

#### **Diversified product offerings across the MSME segment with presence across multiple geographies**

The company started its operations in January 2019 with secured and unsecured business loans for the MSME segment and has over time, diversified into other product offerings catering to the overall MSME ecosystem such as supply chain financing and machinery loans.

The company operates through three sourcing channels i.e. branch led for secured and unsecured loans (66% of AUM as on December 31, 2022), ecosystem led for supply chain financing and machinery financing (20%) and partnership and alliance which is for business loans backed by third party guarantee (14%). The company offers financing solutions to MSME borrowers to cater to their various needs. Additionally, it has independent verticals and product teams to manage the different product lines. The company had, as on December 31, 2022, presence across ~32 states with 98 branches.

The company has also partnered with new age technology companies for the sourcing of loans via a co-lending model, wherein it does not have a physical presence. For machinery loans, the company has built partnerships with 40+ original equipment manufacturers (OEMs) and for supply chain finance, it has built relationships with 75+ anchors as on December 31, 2022. UGRO has also customised its product offerings to meet the demands of its borrower segments and has built in a high degree of digitisation into its business processes.

#### **Weakness:**

##### **Modest, albeit improving earnings profile with operating costs remaining high**

The earnings profile of UGRO, while improving, is constrained by high operating costs. This is due to upfronted operating expenditure for branch infrastructure, human capital and technology infrastructure build-up. Consequently, operating expenses as a percentage of average managed assets remained high at 5.2% for the first nine months of fiscal 2023 as against 4.9% and 5.2% for fiscals 2022 and 2021, respectively.

Nevertheless, pre provisioning operating profit improved year-on-year, to Rs 91 crore (2.7% of average managed assets) for the first nine months of fiscal 2023 from Rs 50 crore (2.0%) and Rs 32 crore (2.1%) in fiscals 2022 and 2021, respectively, supported by high net interest margin and AUM growth.

Net profit although increasing, has been volatile since inception due to deferred tax adjustments. The profitability of the company till fiscal 2021 included benefit derived from deferred tax created on the brought forward business losses of Asia Pragati. From fiscal 2022, the company did not benefit from such tax write-backs and therefore there was a dip in profitability from the levels of fiscal 2021.

The company has written off deferred tax assets of Rs 11.4 crore in the first nine months of fiscal 2023, as these have lapsed. Nevertheless, UGRO's ROMA improved to 0.8% for the first nine months of fiscal 2023 from 0.6% for fiscal 2022 (1.9% for fiscal 2022). Excluding the impact of these deferred tax write offs, ROMA would be 1.1% for the first nine months of fiscal 2023.

Credit costs have been remained range bound at 1.2-1.3% between fiscal 2021 and the first nine months of fiscal 2023.

Going forward, with the scale-up in operations, operating efficiencies are expected to kick in and further improve pre-provisioning operating profits.

#### **Limited track-record of operations**

UGRO commenced its lending operations in January 2019. The company's AUM grew substantially to Rs 5095 crore as on December 31, 2022, from Rs 2969 crore and Rs 1317 crore as on March 31, 2022, and March 31, 2021, respectively. Given the rapid scale-up in loan book in recent years and the limited track record, portfolio seasoning remains critical, with ~40% of AUM being disbursed in the past nine months.

UGRO's gross stage III assets stood at Rs ~85.8 crore (2.5% of gross advances) as on December 31, 2022, as against Rs 56.4 crore (2.3%) as on March 31, 2022, and Rs 36.5 crore (2.8%) as on March 31, 2021. One year lagged gross stage III

was 3.7% as on December 31, 2022. Although marginally increased, the asset quality metrics remain moderate.

The company has restructured assets of Rs 102 crore (2.9% of gross advances), of which Rs 31.6 crore (1%) are classified as gross stage III assets; the performance of this portfolio will be a key monitorable.

The company has made significant investments in systems and processes for underwriting and risk management practices with a strong focus on technology enabled solutions. Additionally, the company has a well-diversified portfolio (with no state contributing more than 16% of the portfolio) and presence across multiple MSME segments.

The ability of the company to manage collections and overall asset quality metrics as the portfolio scales up will remain a key monitorable.

#### **Liquidity: Adequate**

Asset liability maturity profile as on February 28, 2023, had positive cumulative mismatches in all the buckets upto one year. As on February 28, 2023, the company had liquidity of Rs 302.45 crore with Rs 224.4 crore in the form of cash and equivalents, Rs 61.8 crore of liquid investments and Rs 16.25 crore of unutilised bank lines, as against total debt repayment Rs 300 crore till April 30, 2023.

#### **Outlook: Positive**

UGRO is expected to see an improvement in profitability metrics, supported by steady scale up in operations and comfortable capitalisation levels.

#### **Rating Sensitivity Factors**

##### **Upward factors**

- Significant improvement in the market position, while improving asset quality
- Improvement in profitability, with return on assets of around 2% on a sustained basis

##### **Downward factors**

- Leverage going beyond 4.5 times on a sustained basis
- Significant and sustained weakening in asset quality leading to adverse impact on profitability

#### Detailed Rationale

CRISIL Ratings has revised its outlook on the long-term bank facilities and debt instruments of Ugro Capital Limited (UGRO) to '**Positive**' from 'Stable' while reaffirming the ratings at 'CRISIL A-/CRISIL PPMLD A-'. CRISIL Ratings has also assigned its '**CRISIL A-/Positive**' rating to Rs.200 crore tier II bond. The rating on the commercial paper has been reaffirmed at 'CRISIL A1'.

The revision in outlook is driven by the expectation of continued improvement in the earnings profile and steady scale-up of the portfolio. The expected capital infusion of Rs 350-400 crore will support the planned growth. The ratings also continue to reflect the company's diversified and customised product offerings across the micro, small and medium enterprises (MSME) segment. These strengths are partially offset by the company's limited track-record of operations and high operating costs.

UGRO's pre provisioning operating profit has improved to 2.7% on average managed assets for the first nine months of fiscal 2023 from 2.0% and 2.1% in fiscals 2022 and 2021, respectively, supported by high net interest margin and assets under management (AUM) growth. UGRO's return on managed assets (ROMA) improved to 0.8% for the first nine months of fiscal 2023 from 0.6% for fiscal 2022 (1.9% for fiscal 2021). Excluding the impact of deferred tax write offs of Rs 11.4 crore, ROMA would be 1.1% for the first nine months of fiscal 2023. Profitability is expected to improve further with scale based operating efficiency kicking in.

The company's AUM has grown 1.7 times to Rs 5095 crore as on December 31, 2022, from Rs 2696 crore as on March 31, 2022 (Rs 1317 crore a year earlier). Out of the total AUM, ~28% was co-lending book (~8% as on March 31, 2022). The growth has been driven by deepening its presence in existing geographies and increasing co-lending partnerships with large banks.

UGRO's tangible networth stood at Rs 922 crore with adjusted gearing of 3.5 times as on December 31, 2022 (Rs 935 crore and 2.2 times, respectively, as on March 31, 2022). The company is in the final stages of raising additional capital of Rs 350 - 400 crore, with the infusion expected in Q1FY24.

**Analytical Approach**

CRISIL Ratings has analysed the standalone business and financial risk profiles of UGRO.

**Key Rating Drivers & Detailed Description**

**Strengths:**

**Comfortable capitalisation**

Capitalisation metrics remain comfortable, supported by the large initial capital infusion. The company has, since 2018, raised a total equity capital of ~Rs 900 crore, from investors such as Newquest Asia Investments, Clearsky Investment holdings (ADV Partners), Samena Capital and DBZ Cyprus (PAG), most of which was raised upfront, before the commencement of operations in 2019.

As on December 31, 2022, tangible net worth of the company stood at Rs 922 crore with an adjusted gearing of 3.5 times as against Rs 935 crore and 2.2 times, respectively, as on March 31, 2022. The company is expected to follow an asset light model over time with a significant proportion of the AUM being off-balance sheet in the form of co-lending or direct assignment transactions, which should reduce the capital requirement for the business. Co-lending as a proportion of AUM has increased to 28% as on December 31, 2022 from 8% as on March 31, 2022. Further, the company is expected to raise ~Rs 350-400 crore of capital in the near term, which should support the capitalisation for the planned growth.

While gearing is expected to increase from current levels, on-balance sheet gearing is expected to remain below 4.5 times on a steady-state basis.

**Diversified product offerings across the MSME segment with presence across multiple geographies**

The company started its operations in January 2019 with secured and unsecured business loans for the MSME segment and has over time, diversified into other product offerings catering to the overall MSME ecosystem such as supply chain financing and machinery loans.

The company operates through three sourcing channels i.e. branch led for secured and unsecured loans (66% of AUM as on December 31, 2022), ecosystem led for supply chain financing and machinery financing (20%) and partnership and alliance which is for business loans backed by third party guarantee (14%). The company offers financing solutions to MSME borrowers to cater to their various needs. Additionally, it has independent verticals and product teams to manage the different product lines. The company had, as on December 31, 2022, presence across ~32 states with 98 branches.

The company has also partnered with new age technology companies for the sourcing of loans via a co-lending model, wherein it does not have a physical presence. For machinery loans, the company has built partnerships with 40+ original equipment manufacturers (OEMs) and for supply chain finance, it has built relationships with 75+ anchors as on December 31, 2022. UGRO has also customised its product offerings to meet the demands of its borrower segments and has built in a high degree of digitisation into its business processes.

**Weakness:**

**Modest, albeit improving earnings profile with operating costs remaining high**

The earnings profile of UGRO, while improving, is constrained by high operating costs. This is due to upfronted operating expenditure for branch infrastructure, human capital and technology infrastructure build-up. Consequently, operating expenses as a percentage of average managed assets remained high at 5.2% for the first nine months of fiscal 2023 as against 4.9% and 5.2% for fiscals 2022 and 2021, respectively.

Nevertheless, pre provisioning operating profit improved year-on-year, to Rs 91 crore (2.7% of average managed assets) for the first nine months of fiscal 2023 from Rs 50 crore (2.0%) and Rs 32 crore (2.1%) in fiscals 2022 and 2021, respectively, supported by high net interest margin and AUM growth.

Net profit although increasing, has been volatile since inception due to deferred tax adjustments. The profitability of the company till fiscal 2021 included benefit derived from deferred tax created on the brought forward business losses of Asia Pragati. From fiscal 2022, the company did not benefit from such tax write-backs and therefore there was a dip in profitability from the levels of fiscal 2021.

The company has written off deferred tax assets of Rs 11.4 crore in the first nine months of fiscal 2023, as these have lapsed. Nevertheless, UGRO's ROMA improved to 0.8% for the first nine months of fiscal 2023 from 0.6% for fiscal 2022 (1.9% for fiscal 2022). Excluding the impact of these deferred tax write offs, ROMA would be 1.1% for the first nine months of fiscal 2023.

Credit costs have been remained range bound at 1.2-1.3% between fiscal 2021 and the first nine months of fiscal 2023.

Going forward, with the scale-up in operations, operating efficiencies are expected to kick in and further improve pre-provisioning operating profits.

**Limited track-record of operations**

UGRO commenced its lending operations in January 2019. The company's AUM grew substantially to Rs 5095 crore as on December 31, 2022, from Rs 2969 crore and Rs 1317 crore as on March 31, 2022, and March 31, 2021, respectively. Given the rapid scale-up in loan book in recent years and the limited track record, portfolio seasoning remains critical, with ~40% of AUM being disbursed in the past nine months.

UGRO's gross stage III assets stood at Rs ~85.8 crore (2.5% of gross advances) as on December 31, 2022, as against Rs 56.4 crore (2.3%) as on March 31, 2022, and Rs 36.5 crore (2.8%) as on March 31, 2021. One year lagged gross stage III was 3.7% as on December 31, 2022. Although marginally increased, the asset quality metrics remain moderate.

The company has restructured assets of Rs 102 crore (2.9% of gross advances), of which Rs 31.6 crore (1%) are classified as gross stage III assets; the performance of this portfolio will be a key monitorable.

The company has made significant investments in systems and processes for underwriting and risk management practices with a strong focus on technology enabled solutions. Additionally, the company has a well-diversified portfolio (with no state contributing more than 16% of the portfolio) and presence across multiple MSME segments.

The ability of the company to manage collections and overall asset quality metrics as the portfolio scales up will remain a key monitorable.

**Liquidity: Adequate**

Asset liability maturity profile as on February 28, 2023, had positive cumulative mismatches in all the buckets upto one year. As on February 28, 2023, the company had liquidity of Rs 302.45 crore with Rs 224.4 crore in the form of cash and equivalents, Rs 61.8 crore of liquid investments and Rs 16.25 crore of unutilised bank lines, as against total debt repayment Rs 300 crore till April 30, 2023.

**Outlook: Positive**

UGRO is expected to see an improvement in profitability metrics, supported by steady scale up in operations and comfortable capitalisation levels.

**Rating Sensitivity Factors**

**Upward factors**

- Significant improvement in the market position, while improving asset quality

- Improvement in profitability, with return on assets of around 2% on a sustained basis

**Downward factors**

- Leverage going beyond 4.5 times on a sustained basis
- Significant and sustained weakening in asset quality leading to adverse impact on profitability

**About CRISIL Ratings Limited (A subsidiary of CRISIL Limited, an S&P Global Company)**

CRISIL Ratings pioneered the concept of credit rating in India in 1987. With a tradition of independence, analytical rigour and innovation, we set the standards in the credit rating business. We have rated over 33,000 large and mid-scale corporates and financial institutions. We have also instituted several innovations in India in the rating business, including ratings for municipal bonds, partially guaranteed instruments and infrastructure investment trusts (InvITs).

CRISIL Ratings Limited ('CRISIL Ratings') is a wholly-owned subsidiary of CRISIL Limited ('CRISIL'). CRISIL Ratings Limited is registered in India as a credit rating agency with the Securities and Exchange Board of India ("SEBI").
