Details of instruments/facilities in Annexure-1.

Rationale and key rating drivers

CARE Ratings Limited (CareEdge Ratings) has upgraded the rating to long-term bank facilities and instruments of Piramal Finance Limited (PFL) to CARE AA+; Stable from CARE AA; Stable and reaffirmed the rating to the short-term instruments at CARE A1+. The rating upgrade reflects the significant strengthening of PFL's credit profile in the last two years, driven by a structural transformation of its loan portfolio and improving earnings stability. The company has substantially reduced its legacy wholesale exposures and increased the share of granular retail lending. As on December 31, 2025, asset under management (AUM) stood at ₹96,690 crore, registering 23% year-on-year (y-o-y) growth and a compounded annual growth rate (CAGR) of 15% since March 31, 2023. The retail-to-wholesale mix improved significantly to 82:18 (including the legacy wholesale book) as on December 31, 2025, compared to 50:50 as on March 31, 2023. This transition has improved revenue visibility, reduced concentration risks, enhanced portfolio granularity, and strengthened overall business stability. The company's credit profile also benefits from the letter of support from the entity owned by persons related to PFL's promoters, in times of exigencies.

Ratings continue to factor in the Piramal Group's long-standing track record, experienced management team, company's strong capitalisation levels, adequate liquidity, diversified funding base, and improving cost of funding.

¹Complete definition of ratings assigned are available at www.careratings.com and other CARE Ratings Limited's publications.

However, ratings remain constrained by relatively higher cost of funds, relatively moderate but improving profitability and relatively higher stressed assets arising through Wholesale 1.0 book. Ratings further remain constrained by exposure to relatively riskier borrower segments, such as micro, small and medium enterprise (MSME), unsecured lending and real estate-linked lending and relatively low seasoning in recently originated retail portfolios.

CareEdge Ratings has withdrawn ratings on non-convertible debentures (NCDs) (INE641007185 and INE140A07757) due to redemption of debentures on maturity.

Rating sensitivities: Factors likely to lead to rating actions

Positive factors: Factors that could individually or collectively lead to positive rating action/upgrade:

- Improvement in the scale of operations and improvement in profitability indicators, with a return on total assets (ROTA) of over 3% on a sustained basis.
- Significant improvement in asset quality on a sustained basis.
- Diversification of resource profile at competitive rates.

Negative factors: Factors that could individually or collectively lead to negative rating action/downgrade:

- Deterioration in asset quality with net non-performing asset (NNPA)/net worth of over 10%.
- Increase in overall gearing beyond 4.5x.
- Any change in expectation of support from the entity owned by persons related to PFL's promoters.

Analytical approach: Consolidated

CareEdge Ratings has taken a consolidated view of PFL. The approach also considers expectation of support from the entity owned by persons related to PFL's promoters. Entities consolidated are mentioned in Annexure-6.

Outlook: Stable

The "Stable" outlook reflects CareEdge Ratings' expectation of continued diversification and greater granularity of the overall portfolio, and steady improvement in financial performance and asset quality in a calibrated manner. The outlook also captures sustained capitalisation, adequate liquidity buffers, and expectation of financial support.

Detailed description of key rating drivers:

Key strengths

Comfortable capitalisation and gearing levels

The company maintains comfortable capital buffers relative to its scale and risk profile. TNW stood at ₹24,872 crore as on December 31, 2025, compared to ₹24,097 crore as on March 31, 2025. Overall gearing stood at 3.04x as on December 31, 2025, compared to 2.72x as on March 31, 2025, while net gearing (adjusted for liquidity) stood at 2.79x. CareEdge Ratings expects net gearing to remain below 3.5x over the medium term.

The capital adequacy ratio (CAR) moderated from 23.6% as on March 31, 2025, to 20.3% as on December 31, 2025, largely due to change in risk weights following the transition from a housing finance company (HFC) to a non-banking financial company (NBFC) structure in June 2025. Total CAR is expected to remain in the range of 20–21% in the near term.

The group has demonstrated strong fund-raising capability through equity infusions and asset monetisation initiatives, including the sale of stakes in Shriram Finance (₹4,824 crore) and Shriram Investments (₹1,440 crore) in FY24. CareEdge Ratings notes PFL's announcement for stake sale in Shriram Life Insurance Ltd for a transaction value of ~₹600 crore, which is expected to conclude by March 2026. Additionally, the proceeds from a prior transaction with Piramal Imaging SA are also expected to marginally support capitalisation.

Strategic shift towards retail lending and growing scale of operation

PFL has undergone a transformation in its lending strategy in the last few years, shifting away from legacy wholesale exposures toward a more granular, retail-focused portfolio. The company has substantially reduced its earlier large-ticket wholesale exposures that were associated with higher volatility and concentration risk.

PFL's AUM stood at ₹96,680 crore as on December 31, 2025, reflecting y-o-y growth of 23%. Retail AUM contributed 82%, relatively low-ticket wholesale lending (Wholesale 2.0) contributed 13%, and the Wholesale 1.0 contributed 5% of the total AUM.

The share of Wholesale 1.0 reduced from 45% as on March 31, 2023, to 5% as on December 31, 2025, while Wholesale 2.0 increased from 4% to 12% over the same period.

Within retail, housing loans and loans against property account for 56% of AUM, salaried personal loans and unsecured business loans constitute 13%, and used car loans contribute 5%, with the balance comprising digital loans, microfinance loans, and other retail products. The company plans to launch new products to further diversify its retail franchise. The retail-to-wholesale mix (including Wholesale 1.0 book) improved to 82:18 as on December 31, 2025, from 50:50 as on March 31, 2023. The evolving portfolio mix has significantly reduced concentration risk and improved predictability of cash flows. The company intends to maintain a broadly 80:20 retail-to-wholesale mix over the medium term, while continuing to reduce legacy exposures.

Going forward, the company's ability to sustain the envisaged diversification in its AUM composition will remain a key monitorable. This will be important for maintaining portfolio stability and supporting its long-term credit profile.

Strong Financial Flexibility

PFL enjoys high financial flexibility on account of expectation of financial support from an entity owned by persons related to the promoters of PFL, in case of any exigencies. While the said financial support does not constitute an implicit or explicit guarantee, it bolsters PFL's financial flexibility and enhances its resource-raising capacity at competitive rates. The rating factors in the enhanced financial flexibility and benefits from expectation of said support.

Diversified funding profile; incremental costs monitorable

PFL group maintains a well-diversified funding profile, demonstrating its ability to raise capital through multiple sources. As on December 31, 2025, the borrowing mix comprised loans from banks and financial institutions (40%), NCDs and bonds (37%), commercial paper (5%), external commercial borrowings (9%), securitisation (8%), and public issue borrowings (1%). This diversified mix supports financial flexibility and reduces dependence on single funding channel.

In FY25, the group diversified its resource base by raising external commercial borrowings in the form of loans and NCDs amounting to US\$ 815 million. The average borrowing cost improved to 8.9% in Q3FY26 compared to 9.1% in FY25. CareEdge Ratings notes that the group has optimised its borrowing costs in recent fund raises, supported by a softening interest rate environment.

Going forward, PFL expects further diversification in liability franchise at competitive rates.

Strong and resourceful promoters and experienced management team

The PFL group is led by Ajay Piramal, Chairman, Piramal Group, having diversified presence across financial services (through PFL), pharmaceuticals (through Piramal Pharma Limited, comprising CDMO, Critical Care, and OTC segments), and real estate development. The board of directors comprises experienced industry professionals who contribute their expertise and governance oversight. Post the merger, Anand Piramal takes charge as PFL's Chairman. The senior management team includes professionals having extensive and relevant domain experience.

The retail lending division is led by Jairam Sridharan, Managing Director and Chief Executive Officer of PFL, who brings over two decades of experience in retail financial services and specialises in launching and scaling new businesses. The wholesale lending division is headed by Yesh Nadkarni, Chief Executive Officer, with over 20 years of investment experience across debt, equity, and special situations.

Key weaknesses

Moderate but improving profitability

The profitability profile has strengthened after a period of elevated provisioning linked to legacy wholesale exposures. PFL returned to profitability in FY25, after reporting losses in FY24, and it continues to report improvement in earnings. The recovery has been supported by improved operating efficiencies, a reduction in credit costs and reduction in funding costs. While certain one-time gains have aided earnings in the transition phase, CareEdge Ratings expects the core operating performance to improve sustainably over the medium term. In FY25, ROTA improved to 0.56% from negative 2.02% in FY24. In 9MFY26, ROTA improved further to 1.37%. ROTA is expected to remain in the range of 1.5%-2% in FY26, led by further optimisation of operating expenses, reduction in funding cost and one-time gain through stake sale. Although profitability has improved following the clean-up of legacy exposures, the company's earnings profile is still in a rebuilding phase and remains moderately positioned relative to higher-rated peers. The trajectory of operating expenses and credit cost would remain a key monitorable.

Moderate asset quality of wholesale and moderately seasoned retail book

Despite reducing legacy wholesale exposures, PFL continues to have exposure to relatively riskier segments, such as MSME lending and real estate-backed loans, which are vulnerable to economic slowdowns and cash flow issues. The portfolio is more granular and diversified, but a large part of the retail book has been originated recently, which are yet to season through a full credit cycle. The asset quality has stabilised after legacy wholesale rundown, with gross stage three (GS3) at 2.58% and net stage three (NS3) at 1.88% as on December 31, 2025 (compared to 2.8% and 1.9% as on March 31, 2025). Provision coverage ratio (PCR) on AUM fell to 2.04% as on December 31, 2025, from 2.8% as on March 31, 2025 (and 5.1% as on March 31, 2024), mainly due to legacy asset reduction. Despite improvement, the net stressed assets to tangible net worth remains high at 12.97% as on December 31, 2025 (March 31, 2025: 13.34%).

Retail asset quality deteriorated in FY25 from unsecured lending stress, with GS3/NS3 at 1.9%/1.2% as on March 31, 2025, rising to 2.3%/1.6% as on December 31, 2025. Wholesale 2.0 shows nil delinquencies, but Wholesale 1.0 remains volatile and has shrunk via write-offs and sales to ARCs over the years, causing losses. The management has indicated that most stress in wholesale book is provisioned, with focus now on resolution. CareEdge Ratings will monitor asset quality trends, Wholesale 1.0 resolution, and sustained health in retail/Wholesale 2.0 amid residual legacy stress.

Liquidity: Strong

PFL has unencumbered liquidity of ₹6,072 crore as on December 31, 2025, which is sufficient to cover debt repayments for the next three months. Scheduled collections from the loan portfolio provide additional comfort. Considering asset-liability mismatch, PFL had a cumulative surplus across all maturity buckets as on December 31, 2025. The expected support by the entity owned by persons related to PFL's promoters in times of exigencies also enhances financial flexibility.

Environment, social, and governance (ESG) risks:

Although PFL's service-oriented business model limits direct exposure to environmental risks, credit risk may arise if operations in asset class within the portfolio are adversely impacted by environmental factors. The PFL group disbursed ₹476 crore towards green projects.

Social risks such as cybersecurity threats, customer data breaches, or mis-selling practices may impact PFL's regulatory compliance and reputation and remain key monitorable. The company disbursed 69,156 loans to underserved and marginalised communities, while over 2 crore beneficiaries participated in financial literacy and awareness sessions. Empowerment of women remains a key focus, with 121,014 women empowered and 84,680 microfinance women beneficiaries supported.

PFL's board comprises nine directors, with six independent directors and also include one female director. Quarterly complaints report is reviewed by the board to monitor compliance with the Fair Practices Code and assess the effectiveness of grievance redressal mechanisms.

About the company and industry

Industry classification

Macroeconomic indicator	Sector	Industry	Basic industry
Financial services	Financial services	Finance	Non-banking financial company (NBFC)

Founded by Ajay Piramal, PFL is an Upper Layer NBFC registered with the Reserve Bank of India (RBI), engaged in retail and wholesale lending. The company offers home loans, loans against property, MSME loans, personal loans, used car finance and wholesale lending solutions. In the last few years, the company has repositioned its strategy towards a granular retail-focused

lending model with a calibrated approach to wholesale exposures. With an AUM of ₹96,690 crore, pan-India branch network of over 518 locations, and workforce of over 16,937 employees, the group is strategically positioned to scale its financial services business across key customer segments.

About us:

Established in 1993, CareEdge Ratings is one of the leading credit rating agencies in India. Registered under the Securities and Exchange Board of India, it has been acknowledged as an External Credit Assessment Institution by the Reserve Bank of India. With an equitable position in the Indian capital market, CareEdge Ratings provides a wide array of credit rating services that help corporates raise capital and enable investors to make informed decisions. With an established track record of rating companies over almost three decades, CareEdge Ratings follows a robust and transparent rating process that leverages its domain and analytical expertise, backed by the methodologies congruent with the international best practices. CareEdge Ratings has played a pivotal role in developing bank debt and capital market instruments, including commercial papers, corporate bonds and debentures, and structured credit. Disclaimer:

This disclaimer pertains to the ratings issued and content published by CARE Ratings Limited ("CareEdge Ratings"). Ratings are opinions on the likelihood of timely payment of the obligations under the rated instrument and are not recommendations to sanction, renew, disburse, or recall the concerned bank facilities or to buy, sell, or hold any security. Any opinions expressed herein are in good faith and are subject to change without notice. The rating reflects the opinions as on the date of the rating. A rating does not convey suitability or price for the investor. The rating agency does not conduct an audit on the rated entity or an independent verification of any information it receives and/or relies on for the rating exercise. CareEdge Ratings has based its ratings/outlook on the information obtained from reliable and credible sources. CareEdge Ratings does not, however, guarantee the accuracy, adequacy, or completeness of any information and is not responsible for any errors or omissions and the results obtained from the use of such information. The users of the rating should rely on their own judgment and may take professional advice while using the rating in any way. CareEdge Ratings shall not be liable for any losses that user may incur or any financial liability whatsoever to the user of the rating. The use or access of the rating does not create a client relationship between CareEdge Ratings and the user.

CAREEDGE RATINGS DISCLAIMS WARRANTY OF ANY KIND, EXPRESS, IMPLIED OR OTHER WARRANTIES OR CONDITIONS, TO THE EXTENT PERMITTED BY APPLICABLE LAWS, INCLUDING WARRANTIES OF MERCHANTABILITY, ACCURACY, COMPLETENESS, ERROR-FREE, NON-INFRINGEMENT, NON-INTERRUPTION, SATISFACTORY QUALITY, FITNESS FOR A PARTICULAR PURPOSE OR INTENDED USAGE.

Most entities whose bank facilities/instruments are rated by CareEdge Ratings have paid a credit rating fee, based on the amount and type of bank facilities/instruments. CareEdge Ratings or its subsidiaries/associates may also be involved with other commercial transactions with the entity. CareEdge Ratings does not act as a fiduciary by providing the rating. The ratings are intended for use only within the jurisdiction of India. The ratings of CareEdge Ratings do not factor in any rating-related trigger clauses as per the terms of the facilities/instruments, which may involve acceleration of payments in case of rating downgrades. However, if any such clauses are introduced and triggered, the ratings may see volatility and sharp downgrades. CareEdge Ratings has established policies and procedures as required under applicable laws and regulations which are available on its website.
